

vickys.co.in

About us...

The 'HI-STYLE Products' is an Indian parental company having multiple brands of multi-faceted furniture identities and in the allied products with global ambitions.

Brand 'Vickys' is launched in 2014 from the house of 'HI-STYLE Products', the company that has its manufacturing base in central part of Tamilnadu. The total space used for manufacturing purpose is 100,000 square meter and the storage space amounts to 25,000 square meter.

Why us?

In this new era of business, success requires an organization capable of focusing its resources around delivering upon its strategy and meeting the present and future need of customers.

'Vickys' achieved its business objectives by managing activities in a procedural way. The process within our organization allow us to focus our teams' effort so that we deliver on our set strategy, meet our customer needs and win many new customers.

In the current days of exponential change, learning has to be continuous. More than learning, unlearning is pivotal. We as an organization have a cultural built up and ability to adapt to the ever changing environment.

We stick to our tried and tested strategies, while innovating new styles. As to do so, we have identified what needs to be measured and at what frequency.....

Vision

In my work and my life, I feel a desire to merge not in terms of losing my own identity. With broader promises, capabilities to critical thinking and logical deduction, I wish to be the most respected creator of high quality manufacturer of meaningful furniture without which I cannot have constructive progress...

Mission

Continuous improvement in our manufacturing process.

Focus on value based manufacturing.

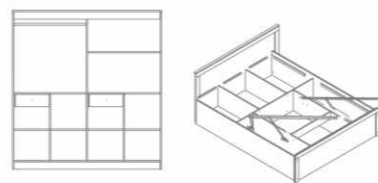

Providing safe working environment to our staff.

Infrastructure

As businesses grow larger, so does the organisation therefore, the entire business is divided into functions under each process. At the outset, all the processes which are strictly documented are operating processes which transforms inputs to outputs.

At present, there are three state-of-the-art manufacturing units located in Dindigul, Tamilnadu. We are equipped with the latest machinery from Germany and has the capabilities to produce furniture made of Particle board, Metal induced furniture and Customized furniture on a large scale of units. The facilities is fully ready to handle all aspects of furniture production from aesthetic design to the finished products. The in-house design team is competent to handle customized furniture at an ease.
